Atleast mak-mak zaman sekarang kena selangkah dari anak-anak, lagi dalam Ai ni.

JPW buat program train the trainer bimbingan Puan **Kartina Abdul Ghani** mengajar Ai lebih mendalam, prompting yang berbeza, outcome tak sama macam yang sebelum ni keluar.

Ada attend beberapa kelas Ai juga sebelum ni, tak tau macam mana nak explain.. memang berbeza dari Puan Kartina dedahkan. Nampak positif penggunaan Ai ni tapi negatifnya datang bila explore deeper.. Kalau tengok statistik ramai juga hilang pekerjaan sejak ada Ai, dengan killer robots, deepfake n macam2 lagi.

So memang intense giler kelas Ai this time.. tQ again Puan Kartina & JPW. Memang lepas ni saya sendiri akan mantapkan ilmu untuk sebarkan sebagai pengajar pula.

Mak-mak lepas ni kena ambil tahu tentang Ai dengan cara yang betul.. Sebab Ai bukan

Thank you **Kartina Abdul Ghani** for imparting precious knowledge and being patient to us all. Through your session, I learnt that AI could do anything and everything IF we know how to utilize it the proper way. Such 'proper way' is not known to many people and you have delivered it beautifully to us. Thanks again Puan. Looking forward for the mentoring sessions!

## AMB Mobile App Building class

The six-day AMB mobile app building class is a must-attend workshop for those who are seeking a new skill and diversify their revenue source. As someone who works in the multimedia industry, the AMB workshop has enabled me to expand my creativity through app building. Which aptly syncs with the trend and the needs of today's technology-driven culture and lifestyle. Furthermore, the workshop also proves that even with zero or no coding/programming skills, you can build a superb mobile application using the drag-and-drop method. Add the easy-to-comprehend teaching and learning method as well as the welcoming environment and Puan Kartina's ceaseless dedication and patience; I have to say it is an enjoyable workshop worth joining. ## AMB Academy Drag-and-Drop App Development Course

The course was informative as well as challenging. Puan Kartina, Angel, Hafiz and Shawn were patient and helpful in instructing participants on the steps to be taken, rules with which to be complied and procedures to be followed in registering to become Google Play Developers. Puan Kartina and her team's instruction and hands-on assistance were invaluable in supporting participants in learning how to effectively use AMB Academy Drag-and-Drop App in creating mobile apps. Offer of post-course support from Puan Kartina and her team, in-person and online, is greatly welcome and deeply appreciated. [less](#)

Sekali gus, mencipta rekod di dalam Malaysia Book Of Records sebagai pendakian paling kerap dalam satu ekspedisi.</p> <p>Sebenarnya ibu kepada lima cahaya mata itu membuat persiapan rapi bagi mencipta rekod itu, sejak 2019 dengan menguji kemampuan diri untuk naik dan turun ke gunung berketinggian 4,095 meter itu selama tiga kali pada Januari 2019 dalam satu ekspedisi. Kemudian, lima kali pendakian dalam satu ekspedisi pada April tahun yang sama.</p> <p>Semangat usahawan di dalam bidang latihan teknologi maklumat itu bertitik tolak pada 2017. Ketika itu, beratnya mencecah 90 kilogram (kg) dan rakannya mengajak untuk melakukan aktiviti kecergasan yang boleh menurunkan berat badan dengan aktiviti mendaki.</p>
 <p>6:37 google.com/amp/s/</p> <p><b>my Metro</b></p> <p>dengan aktiviti mendaki.</p> <p>Katanya, ketika itu, rakannya mengajak untuk mendaki ke Everest Base Camp (EBC) di Nepal. Namun, dia merasakan alang-alang sudah ke kem induk gunung tertinggi dunia itu, lebih baik merancang terus ke puncak.</p> <p>"Bertitik tolak daripada impian itu, saya mula berlatih dan meletakkan sasaran untuk mendaki ke Gunung Everest pada 2024. Latihan fizikal saya lakukan dari masa ke masa. Namun, terdapat beberapa halangan seperti Perintah Kawalan Pergerakan (PKP) menyebabkan latihan ke beberapa gunung tergendala dan misi itu ditunda pada 2026.</p> <p>"Jadi, saya menjadikan latihan asas untuk menggilap kemampuan fizikal terutama dari segi daya tahan diri dengan berlatih ke Gunung Kinabalu terlebih dahulu. Maka, saya mencipta rekod mendaki sembilan kali dalam satu ekspedisi dalam tempoh 22 hari pada tahun lalu," katanya.</p> <p>Katanya, dalam pada tempoh 22 hari untuk</p>	 <p>6:37 google.com/amp/s/</p> <p><b>my Metro</b></p> <p>Katanya, dalam pada tempoh 22 hari untuk menamatkan sembilan kali pendaki ke puncak bukan sesuatu yang mudah dalam tempoh satu ekspedisi kerana ia cukup menguji kemampuan fizikal dan mental.</p> <p>"Dua kejadian yang saya tidak akan lupakan iaitu pendakian kali ketiga, cuaca buruk berlaku di kilometer lapan pendakian. Awan gelap sudah menjadi 'atap' pendakian. Kemudian angin kuat mula membadaai saya dan malim.</p> <p>"Ketika kejadian itu berlaku saya mula terdetik mengenai tidak akan dapat memeluk lima anak saya di rumah lagi, jika saya terjatuh dipukul angin. Namun, saya kuatkan semangat dan berlindung di sebalik batu. Syukur, saya selamat tiba ke puncak dan kembali ke pintu pendakian di Timpohon," katanya.</p> <p>Ceritanya lagi, cabaran kedua yang tidak dapat dilupakan adalah ketika perjalanan turun selepas kali keenam ke puncak. Ketika itu, lututnya sudah sakit. Namun, dia tetap meneruskan perjalanan turun ke pintu pendakian.</p>

 <p>Ceritanya lagi, cabaran kedua yang tidak dapat dilupakan adalah ketika perjalanan turun selepas kali keenam ke puncak. Ketika itu, lututnya sudah sakit. Namun, dia tetap meneruskan perjalanan turun ke pintu pendakian.</p> <p>"Ketika sakit itu, saya sudah maklumkan terlebih awal kepada kru dan rakan-rakan yang menunggu di pintu permulaan pendakian, jika saya mengalami kesakitan jangan katakan kepada saya untuk berhenti dan pulang. Saya hanya perlukan semangat dan kata-kata positif. Bukan sesuatu yang membunuh semangat," katanya.</p> <p>Kartina berkata, walaupun dia merasa syukur untuk melengkapkan sembilan pendakian ke puncak dalam satu ekspedisi itu tetapi ia masih belum melengkapkan impian utamanya iaitu ke Gunung Everest pada musim pendakian gunung itu pada 2026.</p> <p>"Saya boleh katakan, pencapaian itu adalah separuh daripada latihan saya untuk menguji daya tahan fizikal dan mental terutamanya. Perkara ini penting kerana untuk mendaki Gunung Everest persediaan kemampuan mental adalah paling penting.</p> <p>"Cabaran yang berlaku ketika di Gunung Kinabalu itu saya jadikan sebagai latihan kekuatan mental sekiranya berlaku kejadian yang sukar diramal seperti perubahan cuaca," katanya.</p> <p>Katanya, impian yang ingin direalisasikan itu sebenarnya untuk membuktikan aktiviti pendakian ekstrim bukan menjadi batu sempadan kepada jantina dan usia.</p> <p>"Perkara paling penting adalah tekad dan usaha yang perlu dilakukan seiring untuk mencapai impian," katanya mengakhiri perbualan.</p> <p><b>Disiarkan pada: March 17, 2025 @ 6:20am</b></p>	 <p>belum melengkapkan impian utamanya iaitu ke Gunung Everest pada musim pendakian gunung itu pada 2026.</p> <p>"Saya boleh katakan, pencapaian itu adalah separuh daripada latihan saya untuk menguji daya tahan fizikal dan mental terutamanya.
