

GIORGIO CATUCCI

UNLOCKING INNOVATION THROUGH
MULTIDISCIPLINARY EXPERTISE

Expertise in diverse disciplines enables me to see things from different angles and bring new perspectives

Out of those disciplines there is something for Everyone, Every Day & Everywhere

- Lead, Manage & Mobilize People
- Start, Run or Transform a Business
- Lead Continuous Improvement & Innovation
- Implement Operational Excellence

- Design Customer/User/Employee Experience
- Design Products/Services
- Sustain Customer Loyalty
- Develop Value Propositions & USP

- Manage & Improve Processes
- Manage & Measure Performances
- Measure & Achieve Impact
- Manage Conflict & Stakeholder
- Manage Crisis

- Work Faster, Better & Smarter
- Think Creatively or Critically
- React & Adapt To Changes
- Work & Think Agile
- Pitch & Present Ideas

- Solve Problems
- Analyze & Summarize Situations
- Make Informed Decisions
- Generate & Prioritize Ideas
- Plan & Think Strategically

Six-Sigma Methodology

Data driven approach to **reduce defects**,
minimize variation and sustain quality of business
processes.

Some popular topics are:

- Kano Model
- Critical To Customer (CtC)
- SIPOC (Supplier, Input, Process, Output, Customer)
- Data Collection, Analysis & Measurements (KPIs)
- Data Visualization - Graphs, Charts & Dashboards
- Statistical Process Control (SPC)
- Process Capability Measurements (i.e. CPK & DPMO)
- FMEA (Failure Mode & Effect Analysis)
- DMAIC, DMADV & 8D Approaches

Lean Management

Approach to achieve and sustain business effectiveness and efficiency by **eliminating WASTE** through Continuous Incremental Improvements (**Kaizen**) by **Empowered People** and **Standardization**.

Some popular topics are:

- 5S (Sort, Set In Order, Shine, Standardize & Sustain)
- GEMBA Walk
- TIMWOOD+T or DOWNTIME
- VSM (Value Stream Mapping)
- Problem Solving Approaches (i.e. A3 Method)
- 5 Time Why & Fishbone (Root Cause Analysis)
- PDCA (Plan, Do, Check & Act)
- Team/Performance Dialogs
- Process Management/Improvement & KPIs
- SOPs (Standard Operating Procedures)
- JIT (Just In Time), Queue MGMT, Kanban & Time Analysis

Project Management

Science of managing **scope, resources, and time** needed to start, execute and sustain a project to deliver what promised (**quality**).

Some popular topics are:

- Charter
- SMART (Goal) Statement
- Business Case
- IN/OUT Of Frame (Scope)
- Organization & RACI Matrix
- Risk Management
- Change Request Management
- Issue & Exception Management
- Implementation Plan & Work Packages

Change Management

Practice of **ensuring people transition and stay** in a desired TO BE state.

Some popular topics are:

- Kotter's 8 Steps
- PROSCI Triangle (including ADKAR)
- ACT (Accelerated Change & Transition)
- Law Of Diffusion Of Innovation
- Theory Of Change, Logic Models & OKRs
- Strategic Planning & Communication Plan
- T/O (Threats & Opportunities) Matrix
- WIIFM (What Is In It For Me)
- Stakeholder/Conflict Management & Facilitation Skills
- Start / Stop / Continue
- Nudge Theory & Influencing Model

Design Thinking

Experimental learning approach focusing on **emotions**, **thoughts** and **motivations** behind people's choices to design **experience** or **perception** for...

- Customer with brand or business (CX), or
- User with product or services (UX)

With roots from Creative Thinking, it finds application in Lean Start-up, Social Innovations, & Employee Experience (EX).

Some popular topics are:

- Empathy Techniques
- Personas
- POV (Point Of View)
- User Journey
- Creative Techniques
- Prototyping Techniques

Agile (Practices)

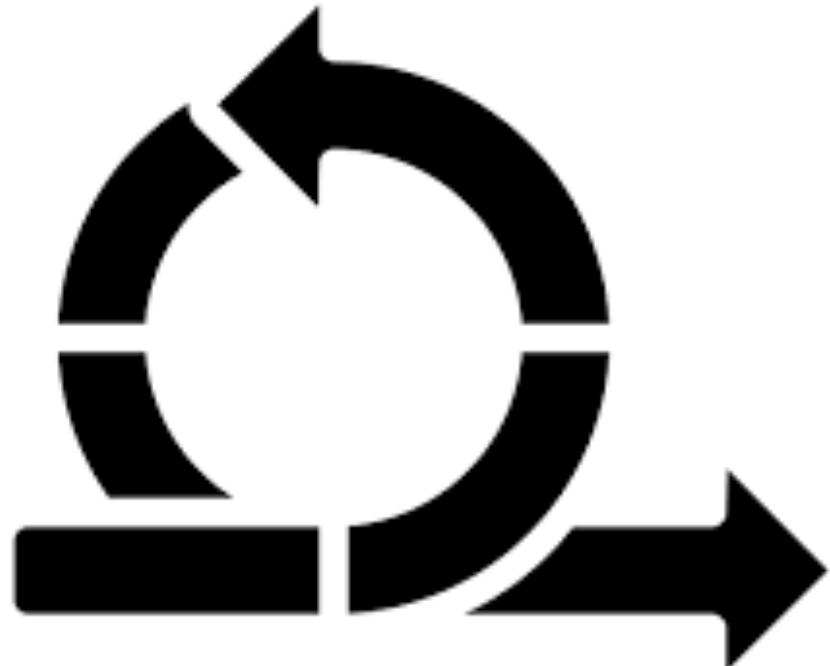

A way of working focused on **frequent delivery of value** enabling to **deal with requirements' changes** during a product/service life cycle.

Started in software development with **Agile Manifesto**, today it is used by businesses in all industries.

While **SCRUM** is the most known framework, there are different ways of working agile.

Some popular topics are:

- MVP (Minimum Viable Product)
- User Stories / Epics
- INVEST Checklist
- Sprints
- Kanban Board
- Daily Stand Up

(Change) Agility

The **ability** (mindset) to **anticipate, respond and adapt** to change - see changes as opportunities, not as a threat or liability.

It impacts strategic thinking, operations, willingness to experiment and take calculated risks.

There are many ways to achieve agility as an **organization** or an **individual**, and require enhanced skills (for example)

- Adaptability
- Resilience
- Versatility

Lean Start-up

Systematic **approach to develop and launch to market** businesses, products or services through...

- business hypothesis driven experimentation,
- iterative product releases, and
- validated learning

Big corporates use it as **incubator** isolated from existing business operation, governance, etc.

Some popular topics are:

- VPC (Value Proposition Canvas)
- BMC (Business Model Canvas)
- MVP (Minimum Valuable Product)
- NPA/NPS (Net Promoter Approach/Score)
- Vision, Mission (Purpose) & Values
- Business Metrics & Innovations KPIs
- Pitching, Presentation & Story Telling

Coaching (On The Job), Mentoring & Consulting In Bite-sized

Leverage on my expertise (no long term commitment) to...

Learn by doing with my supervision and feedback...

I show you how to do it
I shadow you as you do it
I review what you have done

OR

Get valuable insights & different perspectives...

Get practical advise
Get guidance & support
I observe & give feedbacks

OR

Assign me a small task to complete...

I design solutions
I facilitate meetings/workshops
I analyze/summarize information

Training Sessions (HRD Corp Registered Trainer)

After each engagement, I **follow-up** with participants who provided their contact number in the feedback survey, and I **share results** with training organizer.

	Master Class	Discovery	Crash Course	Boot Camp
Duration	1-2 hours	1/2 day	1/2 day to 2 days (Depending on the Topic)	2 (or more) days
Content	Lecture, Audio & Visual, Case Study, Pop Quizzes	Master Class + Practice (exercises)	Master Class + Practice (simulation)	Crash Course + Assignment (E2E Scenario)
Format	Online Face-to-Face	Mostly Face-to-Face	Face-to-Face	Face-to-Face
Outcomes	Awareness and potential applications	Master Class + Understand key concepts, principles, mindsets and behaviors	Discovery + Application & practice of learned topic/s	Crash Course + Experiment with learned topic/s

Activities Done Since 2010

	Entrepreneur Programs	Coach/ Mentor Sessions	Consulted Activities	Managed Initiatives	Training Delivered	TOTAL
Agile & Agility 		4	1	3	16	24
Change MGMT 		17	83	5	32	137
Design Thinking 		3	9	2	105	119
Lean 		41	95	37	217	390
Lean Start-up 	12	52	18	2	25	109
Project MGMT 		37		11	41	89
Six-sigma 		10	54	7	25	96
TOTAL	12	164	260	67	461	964

With >70 Net Promoter Score (NPS) in 2024, I am trusted by...
