

### **Trainer Profile**

Ms. Harpreet Kaur is an experienced Infection Preventionist and Public Health Specialist with over 17 years of experience across clinical nursing, infection prevention & control (IPC), healthcare training, leadership, and the medical device industry.

She began her career as a Registered Nurse in a tertiary hospital and progressively developed deep expertise in Infection Prevention and Control and Public Health. Her strong clinical foundation allows her to effectively bridge frontline healthcare needs with organizational, regulatory, and industry requirements.

Ms. Harpreet has led and supported IPC programmes and outbreak management activities, with hands-on experience managing healthcare-associated infections such as CRE, MRSA, and Surgical Site Infections. During the COVID-19 pandemic, she contributed to pandemic preparedness planning, occupational safety initiatives, PPE implementation, and healthcare worker training, working closely with healthcare institutions and in collaboration with the Ministry of Health (MOH).

She is actively involved in the medical device and healthcare manufacturing sector, providing advisory support to organizations in meeting Medical Device Authority (MDA) Malaysia requirements. Her scope of experience includes:

- Advising on MDA regulatory pathways and compliance readiness
- Supporting implementation and maintenance of ISO 13485 Quality Management Systems
- Advising on GDPMD compliance for medical device distribution
- Providing clinical and infection control input to R&D teams, including product design, usability, labeling, and risk management
- Ensuring medical devices and healthcare consumables align with clinical needs, regulatory expectations, and patient safety principles

Ms. Harpreet has extensive experience in healthcare education and capacity building, having designed and delivered training programmes for healthcare professionals, non-clinical hospital staff, and healthcare industry personnel. She has also been involved in Post-Basic Infection Control programmes and contributed to MQA accreditation processes in private educational institutions. Her interest is in Healthcare Entrepreneurship and has guided many upcoming and budding entrepreneurs by guiding them through.

She is a HRD Corp Registered Trainer and remains actively engaged in healthcare training, consulting, and medical device advisory services across Malaysia.
