# MASTER **IMPACT** MAKER

Khairul by design is trained as Marine engineer which he has travel the world and learn the skills of communication and business among others during his trip onboard ships.

His passion in sharing knowledge has appeared since youth when he became the youngest handball coach to lead a championship team at the age of 16. He continued his trade in developing talent in the corporate world using his unique concept of people management to engage with all levels of employees.

Currently, Khairul is the Past President of Malaysia Association of Trainers and Coaches (MAPTaC), also known to be one of the fastest impact makers in the market as consultants, performance coach and a facilitator. Other than being an accredited HRDC trainer, he is also an NLP trainer, NLP Master Practitioner, Be Well Lead Well Thriving Leadership Guide, 23plus one practitioner, and Experiential Game Designer. He also holds a position as a Council member for Consultant and Business Management Research Association (CBMRA) as part of his portfolio. Because of his hard work, Khairul have been awarded as top 10 trainers in Global Trainers Federation (GTF) for the past three years.

A lovable trainer and facilitator that loves people and want to see people move forward in their lives. His knowledge and experience is beyond industry standards. His biggest strength is his hunger to become better so he can serve his clients better and better.

Highly highly recommended.

Charismatic! He is a giver in all his workshops. I have attended his Bangkit Program for 3 days and alhamdulillah the results are amazing. I really recommend Khairul for his leadership, sales and Bangkit program, you surely don't want to miss it! A plus bonus he is very good in gamification too. Thank you Coach Khairul for inspiring me and all the guidnace!

Khairul has garnered high level of flexibility in his thinking and work. In fact flexibility is simply must be a hallmark of leading and transforming Gen Y including the millennial. He does not need effort to be flexible, he simply is flexible. Khairul is certainly a leader in transformational activities.

Khairul is very passionate in helping people build their personality a brand. He provides coaching with such clarity and he is very generous with his knowledge. Through his clarity in his coaching, it made anyone with barely minimum understanding about personal branding be able to make that transformation. Highly recommended to be coached by him. He is truly a gem! If you need helps, Khairul will always be there for you...

I want to express my deepest appreciation for the invaluable knowledge and skills you have shared during the training session. Your guidance has been nothing short of groundbreaking for me, and I believe it has opened doors to a transformative journey in my personal and professional growth.

I must also sincerely apologize if I may not have always been at my best during certain moments. Adjusting to the morning shift was a challenge for me, and I had instances of micro-sleep, but please know this does not reflect my level of respect or gratitude for your efforts.

You have shown me the first step on a thousand-mile journey, and I am committed to taking the next steps to truly embody and apply what I've learned. Words alone cannot fully capture the impact you've had on me, but I want you to know that I deeply value everything you have taught me. I will do my best to apply these insights and honor the effort you've put into teaching us.

Thank you for being such an incredible mentor and for inspiring me to push beyond my limits.

Below is what I had written to hsbc training department for the training feedback: This NLP training program was truly exceptional and exceeded my expectations on all fronts! I'm already finding myself applying the knowledge and skills I gained to my work, and I feel much better equipped to tackle challenges in my role. The skills covered are incredibly relevant to navigating today's ever-changing workplace, and I especially valued the opportunity to network with other participants.

Here are some of the things that made this training so impactful:

**Practical Focus:** The instructor provided excellent real-world examples, making it easy to see how I can put these NLP techniques into practice.

**Expert Trainers:** The trainers were clearly knowledgeable and passionate about NLP, and their skills in delivering the material were top-notch.

**Well-Structured Program:** The training was well-planned and organized, creating a smooth and engaging learning experience. **Networking Opportunities:** Connecting with other participants was a valuable bonus, allowing me to learn from their perspectives and experiences. For future sessions, I'd suggest:

**Follow-up Session:** A follow-up session would be incredibly helpful to reinforce the learning and dive deeper into specific applications.

**In-Person Delivery:** While the current format was effective, I believe an in-person, face-to-face delivery method would further enhance the learning experience and allow for even richer interactions.

**My biggest takeaway?** Learning how memories can be used to transform habits and mindsets was a game-changer! The training provided clear steps, measures, and habits to make this happen.

I wholeheartedly recommend this NLP training to my colleagues. It's a valuable investment for anyone looking to enhance their communication skills, personal development, and professional effectiveness.
